ANSWERS

## Answers to Your Timber Value Questions

As a valuable commercial product timber is typically sold as “stumpage”, or the amount a buyer is willing to pay for the right to harvest and sell products. Stumpage values vary greatly from timber stand to timber stand, and from buyer to buyer. A **Timber Market Value Report** provides you with a reliable, market-based, stumpage value.

- STUMPAGE VALUES
- TIMBER PRODUCT VOLUMES
- CUSTOM MARKET VALUES
- RELIABLE ANSWERS

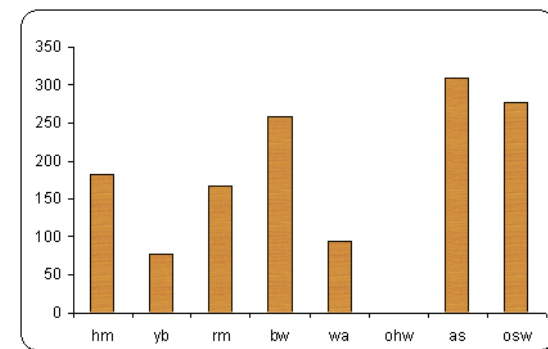

The timber in a forest is capable of producing dozens of different products. Expert measurements are needed to reliably predict the types and volumes of these products.

## Answers You Need

Guessing is not an option when making financial decisions about timber. Current, accurate, and market based measures of timber product volumes and values remove the guesswork.

### CONCISE GRAPHS

## Answers From Your Timber Experts

A **Timber Market Value Report** connects you with the knowledge of timber industry professionals. Reliable answers are the result of years of experience and education applied to actual market conditions under practiced industry standards. Stumpage values, timber product volumes, and custom market values empower you to confidently make expert decisions.

## Answers You Can Use

Buying, selling, or investigating, a **Timber Market Value Report** puts custom stumpage values at your fingertips. Detailed timber and market information is presented in concise tables and graphs.
